

Scott is the visionary who originated the Myriad Resort concept, and has been growing and refining the project since 1999.

Scott Hawrelechko - Founder

Mr. Hawrelechko is the past Chairman and CEO of Myriad Entertainment & Resorts, Inc. (a publicly traded Delaware corporation).

Scott Hawrelechko is a native of Edmonton, Alberta, Canada. He's an entrepreneur who has enjoyed 20 years as a dynamic and successful commercial contractor. His entrepreneurial spirit, persistence and vision are the driving forces behind the concept of a multi facet and climate controlled entertainment, sports and leisure resort destination. The facility in Tunica, Mississippi will be the first project of its kind in the world. It will be the flagship of the company as it brings this technology to the world. Named Myriad to reflect the endless possibilities that it presents, the worlds' largest climate controlled resort will demonstrate to the world what ingenuity and innovation can achieve.

Mr. Hawrelechko started several businesses in a variety of industries; including Edmonton's first drive-thru Italian restaurant. He also wrote a book entitled "How to Create a Craze - Turn Your Everyday Product or Service Into a Customer Obsession", which offers information and assistance to other early stage entrepreneurs.

As well, Scott is a helicopter enthusiast with many hours of flying time and is an avid golfer and sportsman. Scott's interest in golf was the original factor that motivated him to seek out a technology that would extend the relatively short 6 month golf season in Edmonton, and ultimately gave birth to the idea of the Myriad Botanical Resort.
