Re: Myriad Casino Project

Dear Mr. Elmore:

Tunica County is excited about the development proposed by MYRIAD. This project would help make Tunica a total destination for tourists from all over the world, and we are poised to do anything we can to help make it happen.

Tunica County supports this development fully, and we are committed to expand Indian Mound Road to facilitate better access to the property. We will need to seek to obtain funding from the State of Mississippi through its Economic Development Highway Program to help fund the construction costs.

We look forward to working with you on this development. If we can be of assistance in any way, please don't hesitate to contact us.

Sincerely,

Clifton Johnson
